BIG FIRE TUESDAY NIGHT AT BROOKSVILLE DOES GREAT DAMAGE

Six Buildings Destroyed or Badly
Damaged in Fire at Brooksville
Tuesday Night — Maysville
Fire Department Asked
For Assistance.

One of the most disastrous fires in this section of the country in recent years was that of last night which destroyed or badly damaged some six large buildings in the heart of the business district at Brooksville, the county seat of Bracken county.

The fire is said to have been first discovered about 10:30 o'clock and it was seen that it was entirely too large for the Brooksville Fire Department to cope with and immediately appeals for help were sent out over long distance telephone to Augusta and Maysville. The Augusta department responded but the Maysville department did not make the trip for they felt they would be of little service.

Fire Chief Ruliff Newell explained that the equipment of the local department would be of no service in Brooksville because that town had no water system and as the engines only carried about forty gallons of chemicals each this would be of little service in a fire of such large proportions.

The buildings damaged or destroyed by the fire were: Flannery's store, Morehead's Grocery, Holen's Confectionery, Senator Byron's law office, Parson's Insurance office and Corlis & Thompson's undertaking rooms. The cause of the fire is said to have been a defective fuse and the damage is not yet estimated but will probably be more than \$30,000.

There was little insurance carried on the buildings and about one-fourth of the contents of the buildings are covered by insurance.

This is the second large fire Brooksville has had in the past few years.

A petition for a rehearing in the case of Lewis Harris vs. The Commonwealth, was filed yesterday in the Kentucky Court of Appeals.

AMERICAN TOBACCO CO. CLOSES UP SHOP HERE

Largest Buyer on the Maysville Market Has Now Caught Up With All Of Their Purchase in Redrying Plant and Doors Are Closed.

The American Tobacco Company is off the Maysville market and probably all other markets in the state of Kentucky for the balance of the season. This has just become known positively by the orders closing the company's redrying plant here and the leaving of all the company's buyers except Mr. T. A. Duke, local manager, who resides in Maysville.

The company's large re-drying plant which gives employment to many men and women, has been closed up and practically all of the employees have been discharged. Only those employees necessary to the upkeep of the building and plant and the office force maintained the year around have been kept in service.

The permanent withdrawal of the American Tobacco company from the local market has been expected for several weeks and is no surprise to men in the local tobacco circles.

FIGHT STARTED IN FLEMING

The Fleming Gazette says: Minor A Denton, well known business man of Hillsboro, this week announces as a candidate for Representative of Fleming county in the next Kentucky Legislature, subject to the action of the Democratic party at the primary to be held the first Saturday in August. Mr. Denton is a capable business man and citizen of high standing and feels that he is in a position to ask loyal support of his party and the public in general. He notes that his precinct now has the largest Democratic vote in the county, and asks the support of his friends and fellow citizens.

SUIT TO SETTLE DAVIS ESTATE

A suit was filed in the Mason Circuit Court this morning to settle the estate of the late Henry Davis. The style of the suit is Kelly Davis, et al., on petition ex parte. The petitioners ask that a farm located on the North Fork in this county be sold by the Master Commissioner and that the proceeds be divided under instruction of the court.

Cohen for the month of February shows that a total of 110,870,100 pounds of tobacco was sold for \$35,118,629.62 or a general average of \$31.68. Of this 87,823,006 pounds was White Burley which sold at an average of \$35.62 bringing a total of \$31,276,134.69.

ORGANIZATION IS PERFECTED FOR SPECIAL S. S. DAY

Interesting Meeting of Sunday School Workers Held Tuesday Evening When Plans Are Made For Large Attendance on Special Day.

The County Sunday School Committee which met at the Christian Church last evening elected the following committee to have full charge of the Go-to-Sunday-School Day Program in this county:

Chairman, Mrs. J. S. Burwell. Vice Chairman, Rev. Nicholas. Secretary, Mrs. Joseph Wells. Treasurer, Miss Florence Wilson. Publicity Committee: Miss Anna Shackleford, Chairman; Mr. Carl Dodds and Superintendent W. J. Caplinger.

Last year under the official leadership of Mrs. Burwell, the day was a great success and with her able assistants, we can only hope for a greater success. On special days like this we are prone to count success by the number attending which is only one element of success.

It has been observed that the work of the Sunday School was not normal or up to the usual standard on these days due to the crowds, and as a consequence those who attend for this day only, are not impressed with the work and do not become regular members of any Sunday School, so to overcome this, the Committee, recommends to all of the schools to lengthen the class period and conclude with a summary talk by either pastor or superintendent.

Mr. J. H. Richardson was elected Attendance Secretary, whose duty will be to receive the attendance of all schools in the county and publish them in Monday's papers of each week from now until Go-to-Sunday School Day, May 4th.

Every Superintendent is requested to phone the attendance of his school to him Sunday p. m., preferably between 1 and 2 o'clock.

Let every one who believes that the Sunday School is a factor in the building of our citizenship, BOOST to make this a great day and Mason the Banner County.

C. S. DALE, President
County Sunday School Association.

INDIANS GOING ON WAR PATH

Wyandotte Tribe I. O. R. M. received two applications for membership last evening, one by re-instatement the other by adoption. The local chiefs will therefore go on the war path again for a few weeks. Preparation for the work will be made at the next regular council of the Tribe.

MANY LOCAL SOLDIERS APPLY FOR BONUS

A large number of Mason county men who saw service in the late war have already made application for the sixty dollar bonus which the government gives to all men who have been honorably discharged from the service. Those who have not made application for this bonus should do so at once.

There will be a pie and candy supper at the Eastland School house on next Thursday evening held by the Parent-Teacher Association of that school. The public is cordially invited.

BEAUTIFUL PARKER HOME IS PURCHASED BY MR. J. C. EVERETT

Biggest Residence Property Deal in Maysville in Recent Years Is Completed This Afternoon By

Mr. Sherman Arn.

A real estate deal of more than ordinary proportions was completed this afternoon by Mr. Sherman Arn, local real estate dealer, when he sold the magnificent home of Mr. and Mrs. P. P. Parker on Third street to Mr. and Mrs. John C. Everett.

This is beyond a doubt the biggest deal in residence property made in Maysville in recent years and the home which changed hands is probably the highest priced home that has been bought or sold in the past thirty years. The residence is modern and up-to-date in every particular and probably no home in Maysville is better proportioned in all respects.

Mr. and Mrs. Parker decided to sell this palatial home when continued bad health and recommendations of physicians caused Mr. Parker to decide to return to his farm in the country and make that his permanent home.

Mr. Everett, who is one of the city's best and most progressive merchants, is to be congratulated upon the purchase of such a magnificent home. After extensive improvements to make the home just what he and his wife desire in their life-time home, they will move to the residence. This work will in all probabilities be completed and Mr. and Mrs. Everett will be able to occupy their new home by the first of May.

LOGAN'S GAP BOY DIES IN FRENCH ARMY CAMP

Mr. Daniel E. Smith, of Logan's Gap, has just received a telegram from the War Department announcing that his son, Martin Smith, had died of spinal meningitis in an army camp in France. Young Smith was 21 years of age and was drafted into the army from Mason county. He went to camp in April last year and was a member of Co. B, 52nd Infantry overseas.

C. S. DALE, President
County Sunday School Association.

CABLING HOME PURCHASED BY MR. THELSE OWENS

Mr. Sherman Arn, local real estate dealer, this afternoon sold the beautiful home of Mr. and Mrs. J. C. Cablich in Fourth street to Mr. and Mrs. Thelse Owens. Mr. and Mrs. Owens recently sold their farm in the county and will move to Maysville and occupy their new home in a short time. The people of Maysville extend to these good citizens a hearty welcome to our city.

It is expected that work will begin on the pike in the very near future.

JONES-ROSSER

Mr. William E. Rosser, aged 22, and Miss Laura G. Jones, both of this city, were married this afternoon at the parsonage of the Third Street M. E. Church by Rev. Worth S. Peters. The happy young couple left over C. & O. this afternoon for a bridal trip to Cincinnati. They will return in a few days and take up their residence in a flat in East Second street already furnished.

OUT-OF-TOWN STUDENTS PAY LAST TUITION

The treasury of the Maysville public schools was somewhat increased the forepart of this week when all out-of-town students attending the Maysville schools, paid their last half-year tuition. The Maysville schools have quite a number of tuition students enrolled this year.

Several local people attended the Alfred Peed sale in the county today.

FREEDOM OR WAR SAYS IRISH LEADER IN AN INTERVIEW

Head of Revolting Irishmen Says Violence is Only Alternative If Conference Fail to Extend Rights to Irish.

A United Press dispatch published in afternoon papers this afternoon says in part:

Dublin, February 24—"Violence will be the only alternative remaining to Irish patriots if the peace conference at Paris fail to take steps to extend self-determination to Ireland."

Edward De Valera, fugitive president of the revolutionary Sinn Fein party, made this prediction to me two hours ago at a secret midnight interview.

"This means something like continual revolution until Ireland's rights are recognized," he said. His black eyes flashed when he said it, his big jaw squared. He spoke quietly. Nevertheless he was emphatic.

De Valera, American-born son of an Irish mother and a Spanish father, is the soul of the Irish revolutionary movement. British secret police have been hunting him ever since his romantic escape 11 days ago from Lincoln jail on the east coast of England.

I am told that only five persons in the United States knew he was hiding within a few miles of Dublin. Not far from where we met, there were thousands of English soldiers. Dublin swarms with them, as does all Ireland.

These troops, tin-hatted, fully equipped and armed, guard every public building and all bridges, docks and railroad stations. Their presence has created a tense feeling. Many continually fear clashes between soldiers and civilians.

"De Valera is risking his liberty in permitting this interview," said the Sinn Feine who arranged it.

PLANNING WORK ON SARDIS PIKE

Mr. M. B. Ross, assistant state road engineer, is in the city on business in connection with the proposed improvement of the Sardis pike this summer. The state road department and the national Highway Department will join with the County Commissioners in improving this pike. It is expected that work will begin on the pike in the very near future.

WOMEN CHAIRMEN FOR VICTORY LOAN MEET IN LEXINGTON

District Meeting of Women Leading County Work in Victory Loan Next Wednesday.

The first meeting of the School Book Committee of the City Board of Education was held at the High School building on Tuesday evening.

This meeting was only a preliminary affair and little was accomplished because all members of the very important committee were not present.

In discussing the committee's work in selecting books for use in the city schools for the next five years, however, it seemed to be the general opinion of all members of the body that as few changes should be made as possible.

There are two studies that must necessarily be changed this term and these are History and Geography. To prevent several changes, however, the committee seems to be of the opinion that books for these studies should be adopted with the understanding that the publishers will incorporate in the latest edition all of the changes that will be made in texts by the Peace Conference in Europe.

Another meeting of the committee will probably be held some evening next week when it is expected that all members will be in attendance and something more definite can be accomplished.

NARROW ESCAPE FROM DROWNING IN RIVER

Nat Geis, well known local man, had a very narrow escape from drowning in the Ohio river at Manchester Tuesday afternoon according to information reaching here. Nat, who has been employed on a farm for the past season, went to Manchester more than likely to quench his thirst and as is too often the case, he got just a little more than he had business with. In crossing to the Kentucky side of the river on the Manchester ferry boat, he lost his balance and fell into the river. A life line was thrown to him from the boat, which he caught and he was safely brought aboard but was thoroughly drenched and somewhat more sober than when he fell overboard.

More Cream Money

More cream means more money. There's cream slipping away every day in your dairy. Thousands of scientific tests have proven beyond question that 95 per cent of all hand driven separators are turned below speed a great part of the time. Every member of the family turns the separator at a different speed. If the speed is allowed to slacken, even for a moment, your separator will lose a lot of cream.

THE NEW SHARPLES SUCTION-FEED

Separator Gets All The Cream All The Time

The bowl draws in just enough milk to insure clean skimming. You can turn fast and get through quickly because the capacity increases with the speed. Your wife or daughter may turn slower—according to their strength. The Suction-feed will always skim clean and deliver smooth cream of even thickness—not thick today and thin tomorrow.

There are no disks to wash—only one piece in the bowl, simple as a napkin ring. The supply can is only knee-high. You can empty heavy pails and cans of milk without straining back or arms. Come in and see it for yourself.</

OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

AN EXAMPLE FOR CANADA

Two hundred and fifty million dollars of a deficit and running behind at the rate of a million dollars a day.

That, speaking roughly, is the net result so far of the attempt made by the government of the United States to take over and run the railways of that country.

When the Wilson administration decided it was necessary to take the management of the country's railroads out of the hands of the men who had built and operated them it was done as a "war measure" and because there was an unfortunate lack of the co-operation necessary for wartime conditions among the existing lines.

The government took the railways over, and what happened?

To keep the lines running at all under the resultant confusion of the transfer Mr. McAdoo poured \$220,000,000 out of the treasury at once. That should have been enough, but it wasn't. He boosted freight and passenger rates by 40 per cent.—a thing no private company on earth would have dared to do—and he cut service to the very bone, cut it to the point of actual discomfort for passengers and to the danger point for many manufacturers.

And the net result of all this—so far at least—is a deficit of a quarter of a million and a daily loss, as has been said, of about a million dollars.

What legitimate reason can be given to justify Canada's deliberately putting her head into the same noose?—Montreal Star.

Instead of two years in Congress, Roger gets twenty years in jail—thine right man in the right place at last. No man can be against the United States in time of war and get by with it.

A MAKER OF STARS

Since its production every young actress has been eager to play "Judy" in "Daddy Long Legs." Henry Miller was pestered by hordes of them for three years. Ruth Chatterton was the lucky girl to originate "Judy" in Chicago. It was a tremendous hit and the critics said Miss Chatterton ought to be a star. Mr. Miller thought so too and she became one at twenty. After "Daddy Long Legs" had caught the fancy of New York, the producer wanted to try it in the west. He selected an unknown Rancee Kelly, and she made such an astonishing hit that he sent her to London and for eighteen months Miss Kelly and "Daddy Long Legs" were the toast of the town. Local playgoers will see another approaching stardom when Alice Haynes makes her bow in Jean Webster's charming comedy. "Judy" is a great part and is a maker of stars. No wonder every girl on the stage is eager to play it. "Daddy Long Legs" will be the attraction at the Washington Theater for one night only on next Monday.

GERMAN ARMY
IS LIMITED TO
100,000 MEN

Supreme War Council Settles Matter
of Germany's Army—Only 100,000
Men Allowed to Belong—
Other Matters Settled.

Paris, March 11—The Supreme War Council yesterday finally adopted the military terms of German disarmament. These provide for an army of 100,000 men, enlisted for 12 years.

The Supreme Council also settled the disputed question of representation of the small powers on the economical and financial commissions of the peace conference by deciding to name the representatives itself, thus eliminating all contention between the European and Latin-American countries as to proportionate representation.

This decision was reached on a report of M. Pichon, the French Foreign Minister, which recommended that nations like Brazil, Panama and Cuba which had special interests involved in the action of these commissions, or which had taken some part in the war, should be represented in any case.

The small nations had asked that their representation be increased to ten members, in order to satisfy all parties. The council decided to increase their representation to seven members on each commission, to be selected by the council itself.

Following the meeting of the Committee on Ports, Waterways and Railways, this report was issued:

"The Committee on the International Regime of Ports, Waterways and Railways met this morning in plenary session at 9:30 at the Ministry of Public Works.

"It continued the discussion of the clauses to be inserted in the treaty of peace and began the examination of the control of navigation on the Rhine.

"The meeting adjourned at 12:45."

CLOTHING BADLY
NEEDED IN FRANCE
SAYS RED CROSS

Refugees in France Are More in Need
of Clothing Than Food at Present
Red Cross Says.

Word has just come to Lake Division headquarters in France that the need for clothing among hundreds of thousands of refugees in France is even more imperative than food. That is the substance of a statement contained in the report of fifty investigators of the American Red Cross working among the 200,000 refugees gathered in and about Paris. The report says:

"Most of the refugee families manage to nourish themselves on the Government allowance and their small wages, but they are by no means able to clothe themselves. As the present prices of clothing in France are prohibitive, the need for this kind of assistance is obvious. Accordingly, we decided to give food only when special nourishment was ordered by a physician, but to continue to look after the clothing need as imperative."

It is estimated that the German invasion of France and Belgium made wanderers of 1,250,000 formerly happy country people of these countries.

Now that the conflict is over and the occupied territories of France and Belgium have been liberated, these refugees are hastening back to their former homes in large numbers. They have no thought of the ruins, the cold weather, or their condition as regards sufficient clothing, only the longing to get back to their homes occupy their minds.

In passing their ruined villages and towns, they can be seen standing in the doorway of houses which have for their roofs nothing but a sheet of canvas which sags under the weight of the snow. Smoke curling up from a hole in the ground and investigation discloses a family of four huddled about a fire in the cellar of a completely wrecked home. The children wear old blankets and the parents work and sleep in a ragged path of costumes. To the Red Cross man, who visits them, the mother says:

"We would not mind if we only had a few clothes to keep warm while we work. My boy has not left the fire for three days. It's cold outside and he has nothing but a blanket to put around him."

The gift of a pair of socks by a passing American doughboy to an old peasant at Conflans brought tears of joy. The old fellow talks about his socks unceasingly. Another wears a pair of overalls that were presented to him by an American as proudly as if it were a dress suit. Of food they have little, but of clothes they have practically none.

Such Women Just
Have to "Give Up"

"Man may work from sun to sun, but woman's work is never done." That's why women are overworked, nervous, all run down, no appetite, and can "hardly drag around." Vinol creates a hearty appetite, strengthens the digestive organs, induces sound sleep, invigorates the nerves, and in this natural manner creates working strength.

Narragansett Pier, R.I.

For all run-down, nervous, anemic conditions, weak women, overworked men,

INFLUENZA IS AGAIN EPIDEMIC IN OHIO

Death Rate Is Higher Proportionately Than in December State Health Officer Says.

Columbus, Ohio, March 12—Ohio is in the grip of the third wave of the influenza epidemic. State Health Commissioner A. W. Freeman declared today. A strange feature about it, he said, is the severity of the attacks. While not nearly so virulent as in the October epidemic, the case are more severe than in December, he said.

The death rate is higher according to its number of cases than in December, he said, although the number of cases are fewer. Persons attacked, therefore, should take the illness seriously, and take every precaution against pneumonia, Dr. Freeman urges.

Dr. Freeman believes this to be the last recrudescence of the disease until next fall. Continued warm weather, he predicts, practically will end the epidemic.

William Jennings Bryan is out in a statement favoring the League of Nations but suggesting certain changes to cover faults he finds in the draft.

SWAGAR SHERLEY GETS FAT RAILROAD JOB

Former Kentucky Congressman Appointed to Big Job By Director of Railroads.

Washington, March 12—Former Representative Swagar Sherley, of Louisville, has been appointed to the highest-salaried official position ever offered to a Kentuckian.

As Director of the Division of Finance and Purchases of the Federal Railroad Administration to which he was appointed yesterday, his salary has been fixed at \$25,000 a year.

The appointment was offered him some time ago, and he went to Kentucky recently to consult with friends in regard to the advisability of accepting it. His acceptance was received today.

He succeeds John Skeleton Williams, Comptroller of the Currency, who recently resigned his connection with the Railroad Administration.

The new salary was created especially for Sherley, as Williams was prohibited from drawing any salary except as Comptroller.

NEGRO MAKES KEY TO JAIL DOOR; ESCAPES

Carlisle, Ky., March 12—Henry Wells, negro, recently arrested on a charge of bringing whiskey into local option territory for purpose of sale, escaped from the Nicholas county jail Sunday night by opening the large jail door with a key which he made out of the leg of a cot.

His escape was well planned, as he also knocked or picked several bricks out of the jail wall, evidently intending to go through the wall in the event the key failed to work the lock on the door.

Wells was arrested recently and was tried on a warrant charging him with violating the local option law for the second time, having been convicted several years ago. He was in jail awaiting the action of the May grand jury. No trace of him has been discovered.

LEESBURG POSTMASTER FINED \$200; DECLARIES INNOCENCE

He says the entry was made without his knowledge or his consent and during his absence.

GARDEN ADVISOR TO BE CHOSEN SOON

One of the most important things to be done at the next regular meeting of the Directors of the Maysville Chamber of Commerce is to select some one as chairman of the Victory War Garden committee for the season. Last year Mr. C. P. Diterich acted in this capacity and did it well. No one in the county is as efficient in this work as Mr. Diterich and there is no doubt but that he will be chosen at the next meeting of the board.
